PROJECTS

Payment Gateway Integration

- This project is developed using HTML, CSS, and JavaScript.
- There is a simple donate button on homepage, on clicking the donate button, the user will land on the payment page where user can select the amount to be paid and the payment type that includes Credit Card, Net banking, PayPal and Debit Card.
- On successful payment, an invoice will be generated on a new page regarding completion of the payment

Drum Kit

- This project is developed using HTML, CSS, and JavaScript.
- It is a simple arcade game. Here, the user presses the key from the keyboard or uses the mouse pointer to play the sound of a drum. Each key produces different notes of music and you can press them as many times as you want.
- All the gaming function is set from JavaScript whereas HTML and CSS are set for the layouts and other minor functions.
